

CLAIMS

I claim:

1. A packaging system, comprising:

a flexible bag, said bag including a front wall and a rear wall, said front wall and said rear wall being fixedly attached together at opposing side edges to define longitudinally extending side seams and at a bottom edge to define a closed lower end, a mouth formed by said front and rear walls between said side seams;

a slidable sealer affixed to a top end of said bag for releasably sealing said mouth, said sealer comprising a tongue element and a groove element, said tongue element being disposed on said front wall and said groove element being disposed on said rear wall, said tongue element being adapted for slidably engaging said groove element;

an aperture defined through said front and rear walls proximate an upper end of said bag; and

a pre-cut portion of dental floss disposed within said bag.

2. The packaging system of claim 1, wherein said bag has a width of about 1.5 inches and a length of about 2.0 inches.

3. The packaging system of claim 1, wherein said bag is manufactured from paper.
4. The packaging system of claim 1, wherein said bag is manufactured from plastic.
